CAREER OBJECTIVE

Certified Full Stack Developer skilled in front-end and back-end development using HTML, CSS, JavaScript, React and MongoDB. Passionate about building responsive web apps, writing clean code, and delivering user-friendly digital solutions.

PROJECTS

Popup & Toast Message System

Built a customizable toast/alert popup system using React hooks. Supports success, error, and warning states with smooth animations and auto-dismiss functionality. Designed for easy integration across any web app.

Tech Stack: ReactJS, CSS | (Github) | (Live)

Wordle Game Clone

Developed an interactive Wordle-style word guessing game with real-time validation and keyboard hints. Implemented state management and responsive UI for mobile and desktop users.

Tech Stack: ReactJS, Hooks, CSS | (Github) | (Live)

ShopEase E-Commerce Web App with Admin Panel

Designed a modern e-commerce frontend with product listing, cart, and authentication. Integrated an admin dashboard for product CRUD operations, user management, and analytics.

Tech Stack: ReactJS, Context API / Redux, TailwindCSS | (Github) | (Live)

INTERNSHIPS

MERN Stack Development (Intern) *at* KGiSL MicroCollege   **Jun 2025 - Present**

Currently working on building responsive web interfaces using React.js and gaining hands-on experience in integrating APIs and applying MERN stack concepts for front-end development.

Full-Stack Development (Intern) *at* Cognifyz Technologies   **Jun 2025 – Jul 2025**

Worked on building and improving web applications using HTML, CSS, JavaScript, Node.js, and databases like MongoDB. Gained hands-on experience in full-stack development, teamwork, and agile practices while fixing issues and adding new features.
